

Dear Dr. Webster:

Thank you for taking the time to send your email regarding mobile Positron Emission Topography (PET) scans. I appreciate hearing from you again.

I understand that my colleague the Honourable Dr. Eric Hoskins, Minister of Health and Long-Term Care, responded to you directly in a letter dated August 25, 2016. I have also shared a copy of your most recent email with the minister so that he may be aware of your ongoing concerns.

Thank you again for contacting me. Please accept my best wishes.

Kathleen Wynne  
Premier of Ontario

c: The Honourable Dr. Eric Hoskins
