

EMAIL CHAIN TO KATHLEEN WYNNE:

Original email sent: July 4 2016

To whom it may concern.

I will be sending a copy of this letter to the Premier by Registered Mail. Here is an electronic version of the letter.

I have suggested that if Ms. Wynne would like to discuss this further, to please let me know. However, if not, I would appreciate knowing whether she has seen the letter or not. As I move forward with my efforts to stop Cancer Care Ontario's efforts to block patients, especially breast cancer patients from PET scanning which would be available even in Paraguay, I would like to have my facts straight.

Thank you

Dr. Dave Webster

SENT Letter to Ms. Wynne.

EMAIL RESPONSE FROM KATHLEEN WYNNE:

DATE: July 15 2016.

TOPIC: In response to my email

Thank you for taking the time to send your email regarding PET scans. I appreciate hearing your concerns.

As the issue you raised falls within the area of responsibility of my colleague the Honourable Dr. Eric Hoskins, Minister of Health and Long-Term Care, I have asked that the minister or a member of his ministry staff respond to you directly.

Again, thanks for contacting me. Please accept my best wishes.

Kathleen Wynne

Premier of Ontario

c: The Honourable Dr. Eric Hoskins

My Response:

I sent a response acknowledging the receipt of her response and not asking for a reply. But on their website and forgot to copy.

The gist was that sadly I was not surprised, and pointed out what she almost certainly would have know:

Dr. Hoskins had not responded to my letter about PET already, and was well aware of the concerns.

I ended by saying:

“That this will be your legacy and so be it.”
